Medical Services and First Aid

For

Company:

Address:

Our safety evaluations, reports and recommendations are made solely to assist your organization in reducing hazards and the potential of hazards and accidents. These recommendations were developed from conditions observed and information provided at the time of our visit. They do not attempt to identify every possible loss potential, hazard or risk, nor do they guarantee that workplace accidents will be prevented. These safety evaluations, reports and recommendations are not a substitute for ongoing, well-researched internal safety and risk management programs. This report does not warrant that the property inspected and its operations are compliant with any law, rule or regulation.

United Heartland is the marketing name for United Wisconsin Insurance Company, a member of AF Group. All policies are underwritten by a licensed insurer subsidiary of AF Group.
I. **Medical & First Aid Program**

Readily available medical personnel are provided for advice and consultation on matters of employee health. The consulting physician is:

- **Physician’s Name:**
- **Address:**
- **Telephone:**

Employees desiring to consult with the consulting physician concerning occupational health issues may do so by contacting:

- **Name:**
- **Title:**
- **Location:**
- **Telephone:**

II. **First Aid**

First aid services are provided for treating injured employees in the absence of an infirmary, clinic, or hospital in near proximity to their workplace. Persons rendering first aid have been adequately trained by attending an approved course and obtaining a certificate.

All first aid supplies have been approved by the consulting physician. A copy of the approved supplies and the physician’s written approval is attached. A list of personnel trained in first aid is also attached.

III. **Eye Wash & Safety Showers**

Suitable eye wash and safety shower facilities meeting the requirements of ANSI standard Z 358.1 have been provided where an employee’s eyes or body may be exposed to injurious corrosive materials and quick drenching or flushing may be required for immediate emergency in the work area.

These eye wash and safety shower facilities are tested at least weekly to ensure they are operable and not obstructed. Each work area is responsible for ensuring that all potentially exposed employees are properly trained concerning the use and location of the facilities. Employees participate in the periodic tests to ensure they know the location of the facilities.

IV. **Other Medical Services & Facilities**

(Record other items here)
