**United Heartland Loss Control Representative assisting with the review:**

Conducting a thorough Loss Analysis is an essential part of the annual program review. Prior losses provide a valuable source of information what information should be contained within the “Best Practices” section.

Describe the key findings of the annual loss analysis. Consider STF loss drivers, large STF losses, and other STF exposures.

Describe the Best Practices section that are most impacted by the STF loss trends. Summarize revisions and updates that are needed to this STF program to improve these controls and further reduce STF injuries.

---

Our safety evaluations, reports and recommendations are made solely to assist your organization in reducing hazards and the potential of hazards and accidents. These recommendations were developed from conditions observed and information provided at the time of our visit. They do not attempt to identify every possible loss potential, hazard or risk, nor do they guarantee that workplace accidents will be prevented. These safety evaluations, reports and recommendations are not a substitute for ongoing, well-researched internal safety and risk management programs. This report does not warrant that the property inspected and its operations are compliant with any law, rule or regulation.

United Heartland is the marketing name for United Wisconsin Insurance Company, a member of AF Group. All policies are underwritten by a licensed insurer subsidiary of AF Group.
